Advanced Traffic Radar

Decatur Electronics is pleased to present the best moving radar for police traffic speed enforcement. The G3 is a evolutionary development of the Decatur's G2 radar system providing the next level of improvements in performance, reliability, ease of use and cost.

- Same Direction
- Directional
- Faster Target
- IR Wireless Remote
- Optional: VIP2 available (along with a brief description of this product). The Vehicle Interface Portal (VIP-2) adapter is an accessory for our G3 moving radar, which enhances the radar's patrol speed acquisition. The VIP-2 no longer requires electrical connection to the patrol vehicle's computer (OBDII), simplifying the install and future proofing your purchase.
